Five things fintechs cannot copy.

Wealthsimple competes on simplicity. We compete on already being there.

01

Pre-verified identity

FINTRAC Method 5 reuses the KYC we already did for chequing. No re-upload. Onboarding drops from 25 minutes to 5.

02

\$1.1M protection stack

CDIC on cash, CIPF on securities. Wealthsimple engineered this through partner banks. Scotia has it built in.

03

Native FHSA

The bulk of FHSA contributors are 25 to 34. Solves the housing anxiety and retirement anxiety double bind, in one product.

04

Instant internal transfers

Round-ups and PAC move in real time. No 1 to 3 day delay. No NSF risk. No external account linking.

05

Trust where trust is lowest

82% of 18 to 24 year olds get financial info from social media. Scotia is the credible alternative they already chose.

ScotiaSeed. A two-year matched path from zero to investor.

The bonus is the hook. The auto-PAC is the moat. The two-ledger UI is the trust.

\$25 Account opened Pre-fill from Scotia banking. Five plain questions.	\$25 Education complete Five short lessons. THE HERO UI

Two ledgers. Total trust.

Users see their money and Scotia's match side by side, from day one.

Your money

Deposits, round-ups, growth. Withdraw freely. No clawback, ever.

Scotia's match

Locked for 24 months. Visible from the start. The carrot you can see growing.

The forfeiture rule

Withdraw into Scotia's portion, you have 90 days to restore it. After that, the program ends. No surprises.

Vanguard: 9 in 10 auto-enrolled stay invested at three years. Defaults beat incentives. We use both.

Scotia already spends \$175 to acquire a student chequing account through July 2026. We redirect \$125 more to convert that same person into an investor.

Two of Scotia's four pillars. Eighteen months to launch.

SCOTIA STRATEGIC PILLAR

"Earn primary client relationships"

Convert the deposit relationship into a primary investing relationship, before fintechs do.

SCOTIA STRATEGIC PILLAR

"Make it easy to do business with us"

Collapse investment account onboarding into a five-minute upgrade of an existing chequing relationship.

18 - MONTH ROLLOUT

**Young Canadians are getting
financial advice from TikTok.**

Scotia can do better.

ScotiaSeed. The bank that already has them. Converting them into the investors who stay for a lifetime.

THE FIRST STEP IS ON US.
